

LAND USE CONTROL BOARD RECOMMENDATION

CASE #: U.V. 08-11 CC

At its regular meeting March 12, 2009, the Memphis and Shelby County Land Use Control Board held a public hearing on the following application requesting a use variation on the property described as follows:

LOCATION: West side of Collierville-Arlington Rd., immediately north of Mary's Creek

OWNER/APPLICANTS: John & Kristina Laiché

PROPERTY SIZE: 6.96 acres

EXISTING ZONING: Agricultural (AG) District

REQUEST: Use variation for office / warehouse for an electrical contractor

Gene Bryan, 8922 Hickory Trail, 38018 spoke as *representative* of the applicant, who had built a business on the subject property that is now deemed to be beyond the scope of the original approval. Mr. Bryan stated that the use is screened from nearby properties and that the relatively low volume of traffic generated does not have a significant impact. He also pointed out that that flood zones and utility easements would make the property difficult to fully develop with the "highest and best use" available in the Agricultural (AG) District. The flooding and floodway obstruction potential of the site had been dealt with by the siting of the building and a large culvert built over the Mary's Creek tributary.

Speaking in opposition were **Greg Hall, 550 N Collierville-Arlington Road, 38017; Alex Tartera, adjoining property owner; and Commander John Bogan, President, Fisherville Civic Club.** They indicated that the regulations do not justify the proposed use in an agricultural-rural residential area. No specific hardship was shown, and the property is still usable as a site for a personal residence. The requested use is commercial in nature and therefore out of character with the existing uses. The Gray's Creek Plan identifies areas where commercial uses would be allowed; and this is not one of those locations. A question was raised as to whether the septic system could function properly given the proximity of the floodplain.

James Toles, the *Land Use Control Board Chairman* indicated that he was having difficulty understanding the case for a hardship. **Mary Baker, OPD, Acting LUCB Secretary**, pointed out that the regulations for Use Variances specifically state that an inability to achieve the "highest and best use" is an insufficient proof of hardship.

The Land Use Control Board reviewed the use variation application and the report of the staff. Without any discussion of the site plan conditions, a motion was made and seconded to approve the application as presented. The motion to approve failed by a unanimous voice vote.

A motion was made and seconded to approve the application with the amended conditions. This motion passed by a unanimous voice vote.

In their action the Board concurred with the OPD analysis as presented in the staff report.

Respectfully submitted,

David G. Adams for
Mary L. Baker, Deputy Director
Office of Planning and Development

SITE PLAN CONDITIONS

U.V. 08-11 CC

Office / Warehouse for Electrical Contractor at 475 N Collierville-Arlington Road

Based on Conditions Considered by the Land Use Control Board

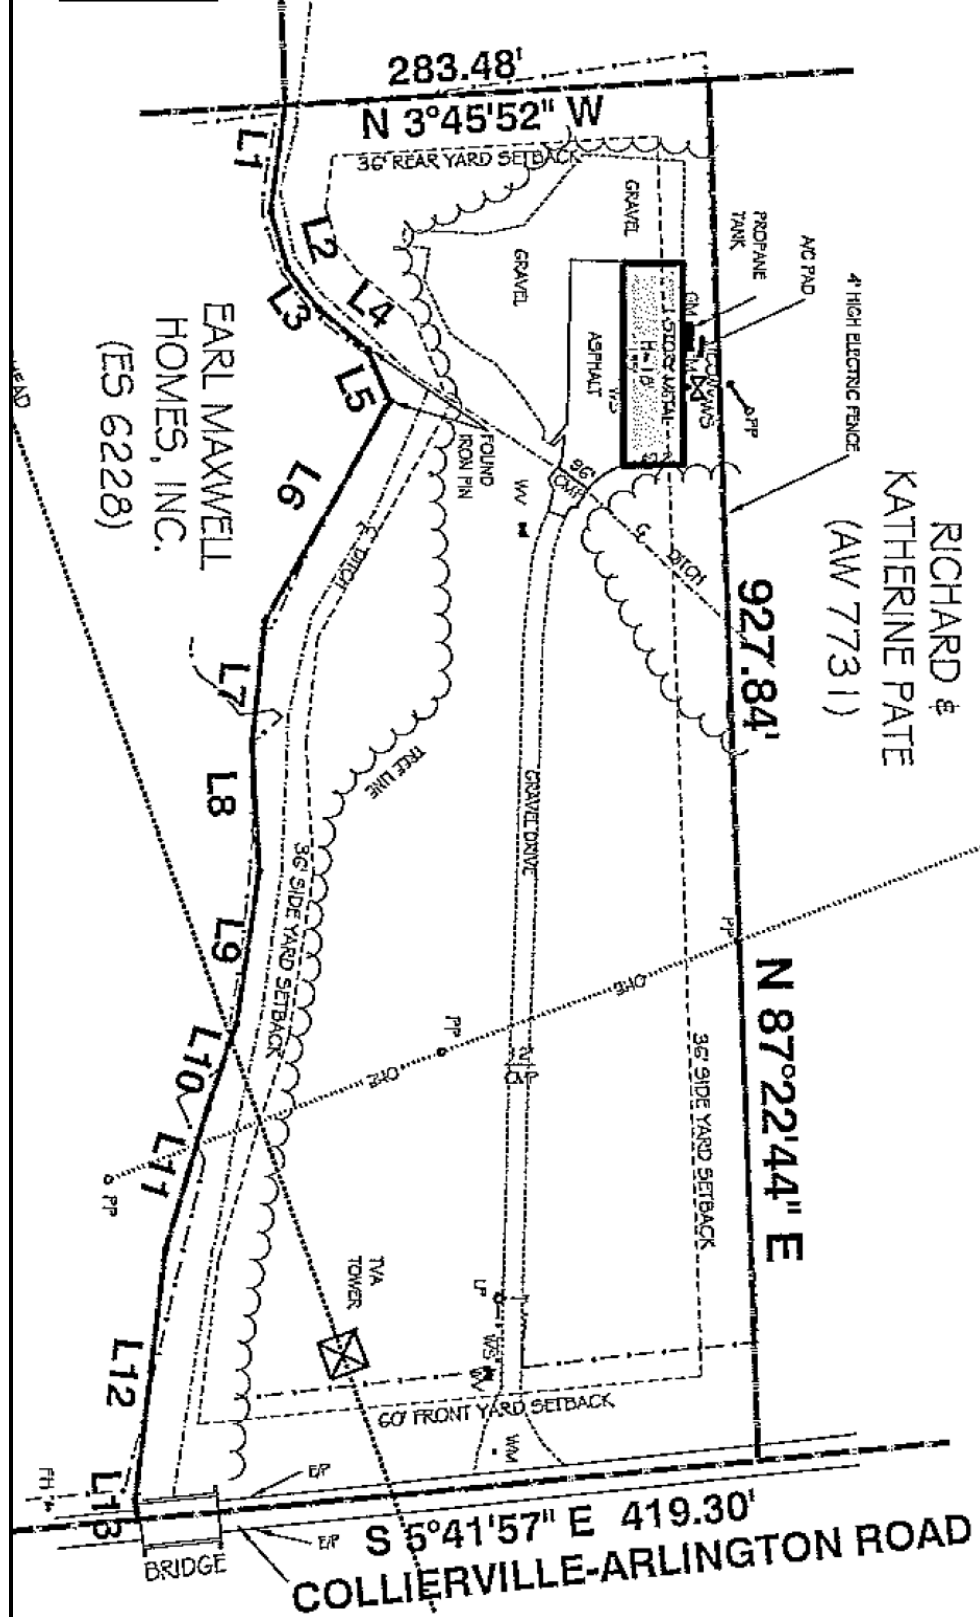

March 12, 2009

A Use Variation is hereby approved to allow **John Laiché** to operate an office / warehouse as the primary location for an electrical contracting business on the property located at 475 N Collierville-Arlington Road (*Instrument #06174610, Shelby County Register*) in accordance with the approved site plan and the following supplemental conditions:

1. Neither additions to the existing building nor any expansion of the site area devoted to this use shall be permitted.
2. No signage shall be permitted that would be visible from off-site.
3. All on-site outdoor lighting to be screened or directed so as to prevent visibility from off-site at any season.
4. No trucking movements shall be permitted onsite or arriving or departing except between 5 AM and 7 PM. Mondays through Fridays. Light duty (pick-up) trucks shall be exempt from this prohibition.
5. Prior to the issuance of a use and occupancy permit, the site plan shall be optimized with respect to parking layout and landscape plans so as to insure no visibility of truck parking or transfer operations from off-site. The final site plan shall be subject to the approval of the Land Use Control Board as a correspondence item, with full notification and a right of appeal to the legislative bodies by either the applicant or any citizens in attendance at the Land Use Control Board hearing.
6. The site plan shall show base flood elevation and actual elevation of the warehouse floor. The culvert over the lateral stream branch shall be assessed with respect to possible floodway restrictions or encroachments, including the culvert installed along the access drive.* All other requirements of FEMA for participation in the flood insurance program shall be complied with before a use and occupancy permit shall be granted, including any floodway encroachments
7. All regulations of the Memphis and Shelby County Health Department to be complied with in respect to approval of septic tank systems on the property.
8. If the County Engineer, finds that that this 7-acre parcel is not exempt from the requirement to subdivide due to drainage issues, final approval of the site plan shall not occur until a subdivision has been approved by the Land Use Control Board.*
9. Certification is required from City and County Engineering with respect to the possible need for additional stream bank stabilization measures.*
